

**Oneira (Dreams) Exhibition in Forza 9 Gallery, Polis Continued ...**

"Creating works of art has always given me a certain peace of mind and it allows me to express my fantasies and feelings. Other people may express their emotions in words, I express myself in light and forms."

Never regarding himself an artist, Chindos is 100% self taught. The artists that inspire him most are the Dutch artist M.C. Escher, renowned for his mathematical prints and Salvador Dali, the famous Spanish surrealist. Although these artists are miles apart in both style and concept, by seeing Chindos' art one can perfectly understand how both of them influenced Chindos in his work.

The exhibition is held in the recently opened gallery FORZA 9. FORZA 9 is a modest sized gallery in the heart of the lovely town Polis Chrysochous. With its monthly exhibitions FORZA 9 wants to create a platform where innovative Cypriot artists can present

their work to local and foreign residents, tourists and – through digital media – to other galleries and cultural centres in Cyprus and abroad.

The interaction which results from exhibiting their work will help artists to further expand their scope and the audience has a chance to experience the diverse, trendsetting and creative activities of the cultural scene in Cyprus.

FORZA 9 is daily open from 9:00am-2.00pm/5.00pm-9:00pm and by appointment: call (+ 357) 99127428
